

27th March 2019 – For Immediate Release

Software Alliance Limited ("SAL"), the developers of the award-winning Mo.net financial modelling platform, today announces the release of Mo.net 7.3.1. The release includes a range of new features, minor enhancements and improvements primarily focused on:

- Extending the seamless integration, governance & control features of the platform
- Refining & standardising the overall user experience to make everyday tasks easier and more intuitive
- Further enhancing development and operational performance, and
- Enriching the integration potential of the platform, both in the enterprise and in the cloud

"we are very pleased to provide our clients with the next evolution of Mo.net. 7.3. This latest release includes new features and enhancements to existing functionality that make the deployment, integration and consumption of models & calculations faster, easier and more controlled," stated Laura Edwards, the Director of Business Development for Software Alliance.

If you are looking for a solution to the next generation of end-to-end Insurance Modelling then consider Mo.net and Software Alliance.
