

Press Release

4th December 2019 – For Immediate Release

Mo.net 7.4

Software Alliance Limited ("SAL"), the developers of the award-winning Mo.net financial modelling platform, today announces the release of Mo.net 7.4.

The next evolution of Mo.net adds a wealth of new features and functionality designed to meet the requirements of traditional insurers and start-ups.

The features included in Mo.net 7.4 are focused on refining the end-to-end user experience and enhancing our support for the operational modelling community. We continue to extend the integration potential of the platform with a range of enhancements to our enterprise technology connectors to help Mo.net provide best-in-class modelling & calculation across the insurance ecosystem.

- Mo.net 7.4 includes enhancements to the integration potential of the platform, both in the enterprise and in the cloud. The Operational Modelling Centre (OMC) allows additional Mo.net and other task types to be included in operational jobs
- Mo.net 7.4 continues to refine the user experience to make everyday tasks easier and more intuitive
- Mo.net 7.4 delivers enhanced governance & control functionality from calculation development through to operational use and everywhere in between.
- Mo.net 7.4 includes a number of performance improvements for both development and operational users.

"Mo.net 7.4 includes features and enhancements to existing functionality that make the development, deployment, integration and consumption of models and calculations faster, easier and more controlled" stated Su Symonds, the Director of Business Development for Software Alliance. "The Mo.net platform allows insurance companies to undertake complex tasks related to financial modelling and analysis in highly flexible and cost-effective ways".
