

Press Release

Coronavirus (COVID-19)

Please be assured that Software Alliance is operating as usual and there will be no service interruption due to the Coronavirus (COVID-19).

We are monitoring the government advice closely, and if we are advised to move to full remote working, our service delivery will be unaffected due to our cloud-based infrastructure.

We test our Business Continuity Plan annually, and this was last tested in December 2019, so rest assured we are confident that we will continue to support our clients and stakeholders as normal, delivering value and service excellence as a standard. We are committed to providing the best possible support for you through the months ahead.

Contact Us
