

Press Release

18th July 2023 – For Immediate Release

Mo.net 7.6

Software Alliance Limited ("SAL"), the developers of the award-winning Mo.net financial modelling platform, today announces the release of Mo.net 7.6.

The next evolution of Mo.net adds a wealth of new features and functionality designed to meet the requirements of traditional insurers and start-ups.

Mo.net 7.6 includes new features and enhancements to existing functionality that make the development, deployment, integration, and consumption of models & calculations faster, easier, and more controlled. Improvements have been made to 4 key areas:

- Mo.net 7.6 includes a range of new features & functionality to further enhance the integration potential of the platform, both in the enterprise and in the cloud
- Mo.net 7.6 continues to refine the user experience to make everyday tasks easier and more intuitive.
- Mo.net 7.6 delivers enhanced governance & control functionality from calculation development through to operational use and everywhere in between.
- Mo.net 7.6 includes a number of performance improvements for both development and operational users.

"We are thrilled to unveil Mo.net 7.6 and confident that its innovative enhancements will elevate our clients' modelling capabilities to new heights, while providing enhanced flexibility and control," said Su Berry, Business Development & Relationship Manager for Software Alliance. "This release represents a significant milestone towards our vision of offering a comprehensive financial modelling platform that caters to every stage of the insurance business lifecycle."
