

# Press Release

5th June 2025 – For Immediate Release

## Mo.net 7.7.1

Software Alliance Limited ("SAL"), the developers of the award-winning Mo.net financial modelling platform, today announces the release of Mo.net 7.7.1.

Mo.net 7.7.1 includes new features and enhancements to existing functionality that make the development, deployment, integration, and consumption of models & calculations faster, easier, and more controlled. Improvements have been made to 4 key areas:

## The release includes the following additions:

### Enterprise & Cloud Integration

- Additional endpoints added for Mo.net Quotations Service
- Improvements to DLL creation functionality

### User Experience

- Capability added for XLSB files to be used for tables and inputs
- Additional functions supported for use in the Migrate Edition of Mo.net Model Adapter

### Performance & Scalability

- Enhancements to Worker Services to enable greater node awareness
- Addition of Worker Service Monitor to enable users to see the status of workers on a machine

### Governance & Control

- Firewall configuration capability during installation added for Mo.net Quotations Service
- Permissions added for additional tasks
- Enhancements to Command Line Compiler
